Cristalrecord **“Real Life Solutions”**.
Solución: en sentido literal de la palabra;
“hecho de resolver una duda, dificultad o problema”.

Cristalrecord **“Real Life Solutions”**.
Solution: in the literal sense of the word;
“a means of solving a question, difficulty or problem”.

EMPRESA / COMPANY

En la vida real y en la actividad diaria de **Cristalrecord** significa remedio, acuerdo, confianza, resolución, esfuerzo, satisfacción, fin, resultado, compromiso, arreglo, desenlace, salida, conclusión.

Cristalrecord ha ido evolucionando la forma de entender la luz, desde sus orígenes en 1995, hasta convertirse en una empresa líder en el diseño y distribución de productos de iluminación interior. Ofrecemos a nuestros clientes soluciones para la vida real.

*In **Cristalrecord**´s real life and daily activity it means agreement, commitment, confidence, effort, satisfaction, aim, results, conclusion.*

***Cristalrecord** has evolved over the years into light development since its founding in 1995 to become a leading company in the design and distribution of products for indoor lighting.*

Our commitment to quality, R&D and flexibility allow us to offer unique and innovative solutions as well as high quality products at national and international levels. Offering solutions for real life.

LABORATORIO / LABORATORY

Nuestros técnicos, pueden analizar de forma rápida y sencilla cualquier producto de iluminación LED

Our technicians can quickly and easily analyse any LED lighting product.

El mercado de la iluminación LED crece a un ritmo muy rápido y las necesidades de los clientes cambian constantemente demandando productos con mayor rendimiento y calidad, que ofrezcan más lúmenes por vatio consumido, lo que favorece al lanzamiento y aparición de nuevos productos.

Como parte de nuestra decidida apuesta por la iluminación LED y nuestros esfuerzos en I+D, hemos incorporado un **laboratorio de fotometría propio**, con una esfera de Ulbricht con la que realizamos ensayos y test de todos nuestros productos para garantizar la fiabilidad y calidad de nuestras soluciones en iluminación LED.

Análisis: Nuestros técnicos, pueden analizar de forma rápida y sencilla cualquier producto de iluminación LED, propio o de la competencia, obteniendo un Test Report con los principales datos técnicos del producto.

Entre ellos, los más comunes utilizados para comparar el rendimiento del producto, son:

- Potencia (Vatios)
- Temperatura. (K˚)
- Flujo Lumínico (Lm)
- Índice cromático (CRI)
- Factor de potencia (P.F)

LED lighting market has suffered an exponential growth in the recent years, and the ever changing customers' needs demanding products with improved performance and quality, capable of offering higher Lm/W ratios, does contribute to the development and launch of new products.

*As a part of our strong commitment in LED lighting and our efforts in R&D, we have installed our **own photometry laboratory** equipped with an Ulbricht measuring sphere, with the aim to perform our own products' testings in order to ensure the quality and reliability of our LED lighting solutions.*

***Testing:** Our technicians can test any LED lighting product, of our own or from our competitors, quickly and easily, and get a test report including product's key technical parameters.*

Among others, some of the most commonly used parameters to compare items' performances, are:

- *Wattage (W)*
- *Colour Temperature (K˚)*
- *Luminous flux (Lm)*
- *Colour Rendering Index (CRI)*
- *Power factor (PF)*

CALIDAD / QUALITY

Cristalrecord colabora estrechamente con el laboratorio de ensayo de luminarias de **AIMME (Instituto Tecnológico Metalmecánico)** de Valencia. AIMME tiene como objetivo principal el ofrecer a los fabricantes un medio para garantizar que sus productos satisfacen los requisitos de las Directivas de Seguridad Comunitarias aplicables a sus productos. La rapidez y fiabilidad de los ensayos es uno de los objetivos fundamentales.

Está capacitado para la realización de los ensayos reflejados en las normas UNE-EN 60598 partes 1 y 2. Asimismo, realiza asistencia técnica para la mejora de los diseños y asegurar el cumplimiento de las normas.

Adicionalmente, el laboratorio está equipado para la realización de ensayos de otros productos relacionados con la Directiva de Seguridad de aparatos eléctricos de baja tensión, para asegurar el cumplimiento de diferentes normas de producto.

El Laboratorio de Ensayo de Luminarias está acreditado por la Entidad Nacional de Acreditación (ENAC) para los ensayos definidos en el Anexo técnico del expediente Nº 44/LE366. 'Ensayos de Luminarias'.

Cristalrecord *works hand-in-hand with* **AIMME (Metal-Mechanical Technological Institute)** *in Valencia. The main goal AIMME has is to provide manufacturers with a means of ensuring that their products comply with the requirements set out by the Directives on Community Safety applicable to their products. The speed and reliability of the tests is one of its fundamental goals.*

AIMME has the capacity to carry out the tests as shown in the laws UNE-EN 60598 parts 1 and 2. Likewise, technical assistance is given for improving design and ensuring the laws are complied with.

Moreover, the laboratory is equipped for carrying out tests with other products related to the Directive on Safety for Low Voltage electrical devices to ensure the product complies with the different laws that may apply to it.

The laboratory for Lighting Tests has been accredited by the National Accreditation Entity (ENAC) for the tests defined in the technical Annex of file Nº 44/ LE366 "Lights Tests".

INTERNACIONALIZACIÓN
INTERNATIONALISATION

club cámara internacional

Especialistas en operaciones de compra-venta nivel internacional

Specialists in purchase and sale transactions at international level

Desde el comienzo de nuestra actividad, hemos apostado firmemente por la internacionalización de Cristalrecord, con una visión al exterior para ofrecer nuestros productos a diferentes países y continentes.

Todo un reto que gracias a nuestra experiencia permite adaptarnos a las necesidades y gustos de nuestros clientes.

Garantizando un servicio excelente y con todas las garantías en cualquier parte del mundo.

We have been strongly supporting the internationalisation of Cristalrecord from the beginning of our activity.

Throughout our vision, we have been focusing abroad, to introduce our products on a worldwide basis.

This has proven to be a challenge that, thanks to our experience, it allowed us to adapt to our customers' needs and tastes. We can ensure an excellent service, with all the guarantees, anywhere in the world.

LOGÍSTICA / LOGISTICS

Un servicio flexible, ágil-rápido, el cuidado al detalle y el trabajo son nuestras señas de identidad. Gracias al excelente equipo que forma **Cristalrecord** podemos dar respuesta y satisfacer las más exigentes expectativas de calidad y servicio de nuestros clientes.

Our distinguishing marks are a flexible and fast service, attention to detail and hard work. Thanks to our excellent Cristalrecord team, we can answer to and satisfy our customers' most demanding expectations.

Su tecnología y materiales de calidad garantizan un rendimiento fiable. Disponemos de una amplia variedad de empotrables técnicos para cada necesidad: fijos, basculantes, estancos, orientables, cuadrados, ovalados…

Diferentes tamaños y acabados que permiten su adaptación a cualquier ambiente.

The quality of the materials and the technology used ensures reliable performance. We offer a wide range of technical recessed lights to each need and project: tilting, fixed, squared, circular, sealed. Different sizes and colours to perfectly suit any setting.

¿Cómo funciona?
How does it work?

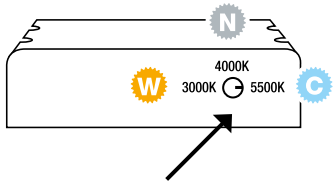
CHANGE W N C

DOWNLIGHT CON 3 TONOS DE LUZ /
DOWNLIGHT WITH 3 LIGHT COLOURS

1

Selecciona en el DRIVER la temperatura predeterminada que quiera poner cuando encienda el producto.

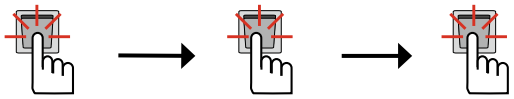
Select on the DRIVER the default colour temperature you want when turning on the product.



2

Acciona el interruptor repetidas veces y cambiará el tono de luz.

Operate the switch several times to change the lighting colour.



W — 3000K
Luz cálida / *Warm light*

N — 4000K
Luz neutra / *Neutral light*

C — 5500K
Luz fría / *Cold light*

3

Acciona el interruptor, apaga, espera 10 segundos y enciende de nuevo.
Se encenderá la luz elegida por ti, que será la predeterminada.

Turn off the light, wait 10 seconds and turn it on again.
The initial preferred light will go on.

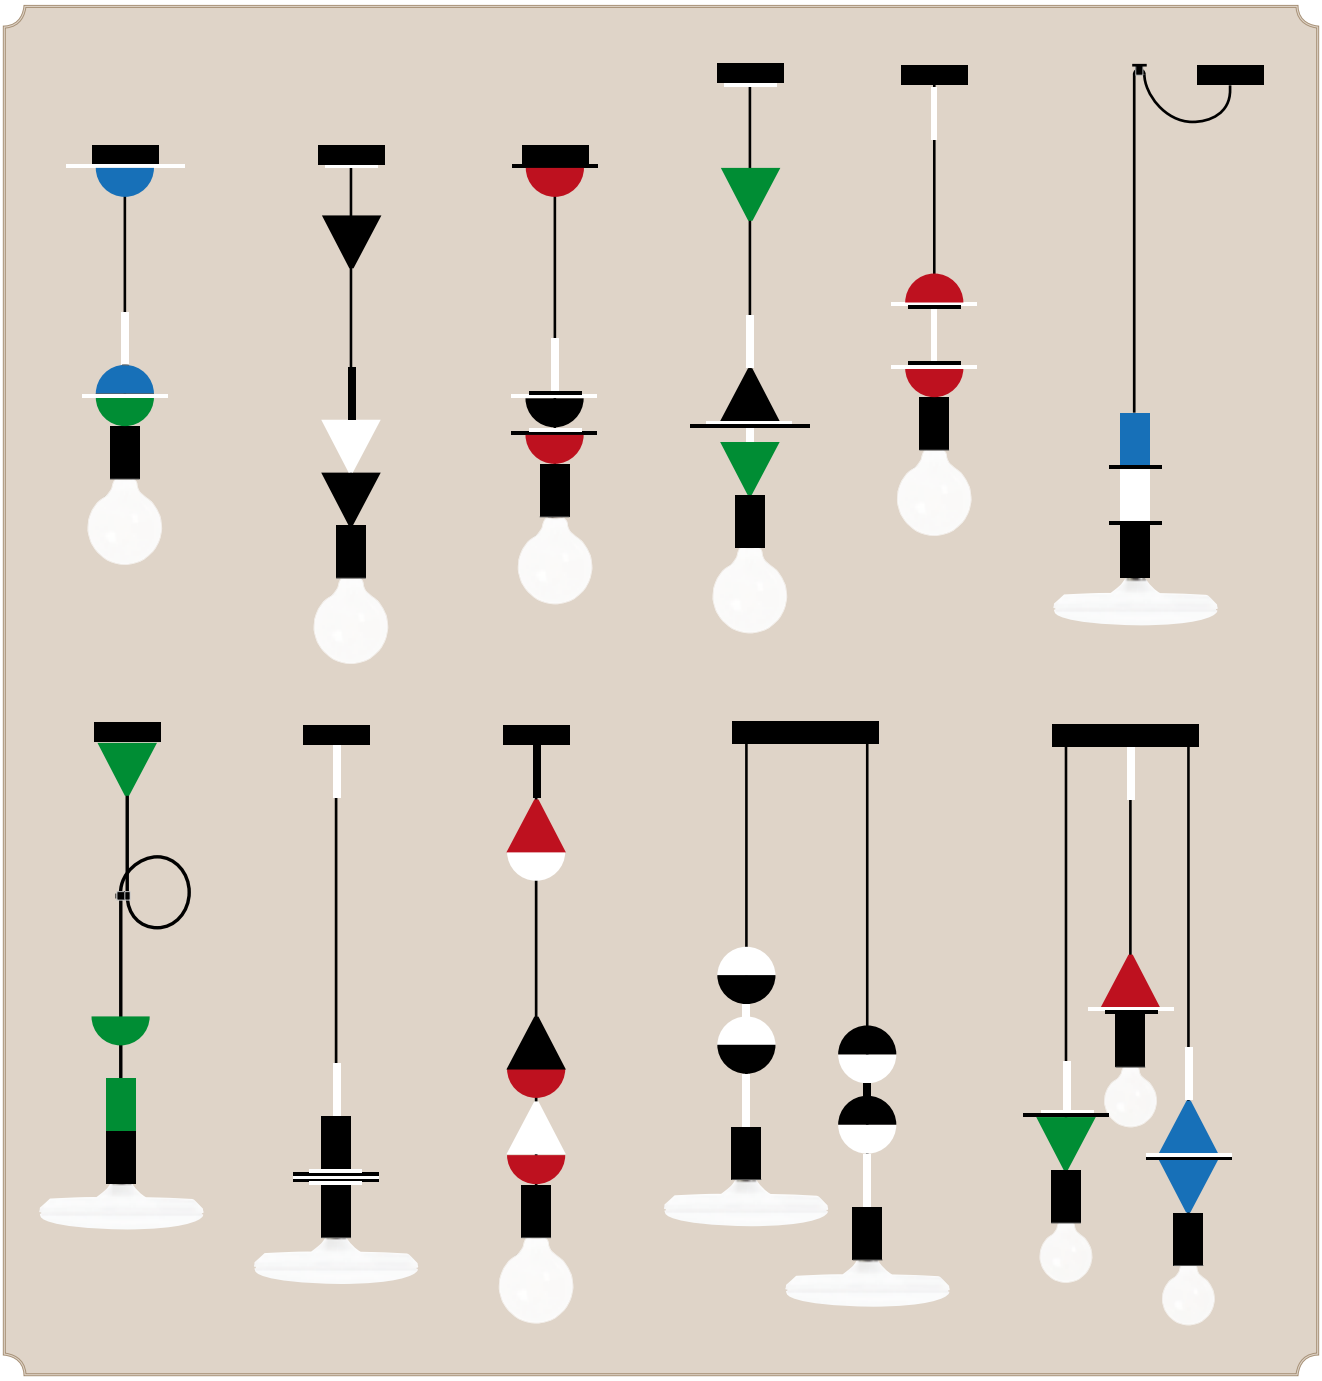
Ideas y ejemplos de combinaciones / Ideas and examples of combinations

Utiliza como base el colgante portalámparas, escoge las formas y colores que más te gusten y distribúyelos por el cable. Usa los complementos de freno, gancho y loop según vayas necesitando. Ya puedes disfrutar de una lámpara totalmente personalizada.

Use the ceiling rose as a framework, choose the shapes and colours you like the most and spread them through the cable. Use the braking accessories, cable ties and loops as you need. You can now enjoy of a fully customised lamp.



DECO DESIGN

Page. 148-193

Diseños propios, las colecciones exclusivas de Cristalrecord. Lámparas de diseños actuales muy versátiles gracias a sus sencillas líneas, pero con un alto componente decorativo. Luminarias de vanguardia perfectas para iluminar cualquier estancia con personalidad.

Our own designs, exclusive collections of Cristalrecord. Lamps with a contemporary and very versatile design thanks to its pure lines, but with a highly decorative value. Vanguard luminaires perfect for lighting any room with a character of its own.

DECO VINTAGE

Page. 194-257

La iluminación de estilo industrial y retro-vintage es tendencia en el mercado de iluminación decorativa. Disponemos de una amplia variedad de lámparas diferentes y originales realizadas en materiales como madera, cuerda, cemento, cristal, metal etc... Además de ser un elemento decorativo permiten múltiples combinaciones de montaje para adaptarse a todo tipo de espacios: salones, cocinas, dormitorios, comercios, restaurantes, hoteles, etc.

Lámparas que sin duda no dejarán indiferente a nadie.

Retro-vintage and industrial style lighting is a trend in the decorative lighting market. We have a wide range of original lamps made of different materials such as wood, rope, concrete, glass, metal, etc. They are not only a decorative feature but allow multiple mounting options to fit all types of spaces: living rooms, kitchens, bed rooms, commercial spaces, restaurants, hotels, etc.

Light fittings that won't leave anyone indifferent.

DECO BASIC

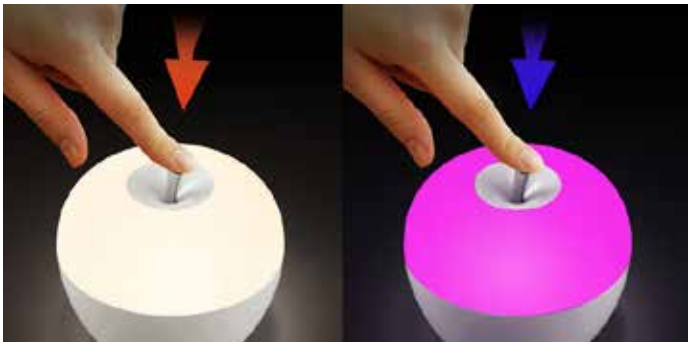
Sople en el agujero de la parte superior de la manzana para encender y apagar la luz.

Blow at the hole in the top part of the lamp to turn on/off the light.



Cuando la luz esté encendida, pulse levemente el rabo de la manzana para cambiar de luz blanca a luz de color (RGB).
En el modo luz blanca, pulse prolongadamente el rabo de la manzana para ajustar la intensidad de la luz.
En el modo luz de color, pulse prolongadamente el rabo de la manzana para seleccionar un color de forma fija.

When the light is on, shortly press the stem of the apple to switch between white light or coloured light (RGB).
In white light mode, long press the stem to adjust the brightness.
In coloured light mode, long press the stem to select the colour, let it go to fix on the current colour.

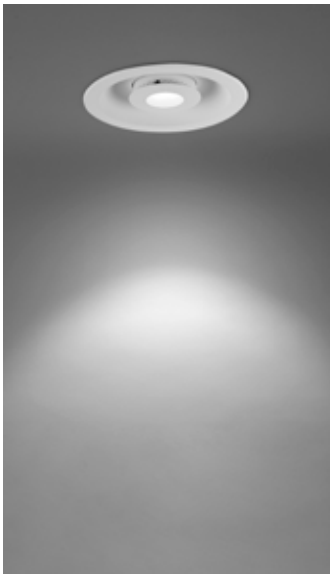
LUZ COMBINADA
COMBINED LIGHT



Nuestra apuesta por la iluminación LED y nuestros esfuerzos en I+D, dan como resultado una solución única e innovadora en el mercado. Un producto exclusivo y patentado por Cristalrecord, basado en la iluminación combinada. Un producto que incorpora dos fuentes de iluminación. Un sistema que permite contar con tres funcionalidades en un mismo producto, pudiendo realizar tres tipos de iluminación: ambiental, indirecta y la iluminación combinada.

El sistema de iluminación combinada proporciona una nueva experiencia en el mercado de la iluminación, una nueva forma de entender la luz, una iluminación confortable, decorativa y funcional.

Our commitment to led lighting and efforts in research and development become an unique and innovative solution in the lighting market. An exclusive and patent product, the combined lighting. The only product in the market adding two sources of illumination. This new system provides the advantage of three functions in a single product: indirect lighting, direct light and combined lighting.

A combined lighting system that provides a new experience in the lighting market, a new way of understanding ligh, comfortable, decorative and functional lighting.

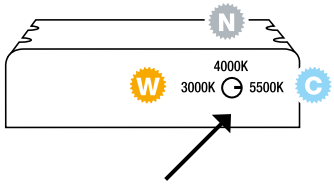
¿Como funciona? /
¿How does it work?

Downlight con 3 tonos de luz /
Downlight with 3 light colours

1

Selecciona en el driver la temperatura predeterminada que quiera poner cuando encienda el producto.

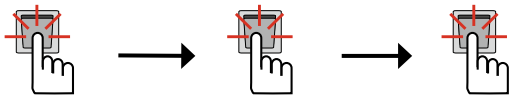
Select on the DRIVER the default colour temperature you want when turning on the product.



2

Acciona el interruptor repetidas veces y cambiará el tono de luz.

Operate the switch several times to change the lighting colour.



W	N	C
3000K Luz cálida / Warm light	4000K Luz neutra / Neutral light	5500K Luz fría / Cold light

3

Acciona el interruptor, apaga, espera 10 segundos y enciende de nuevo.
Se encenderá la luz elegida por ti, que será la predeterminada.

Turn off the light, wait 10 seconds and turn it on again.
The initial preferred light will go on.

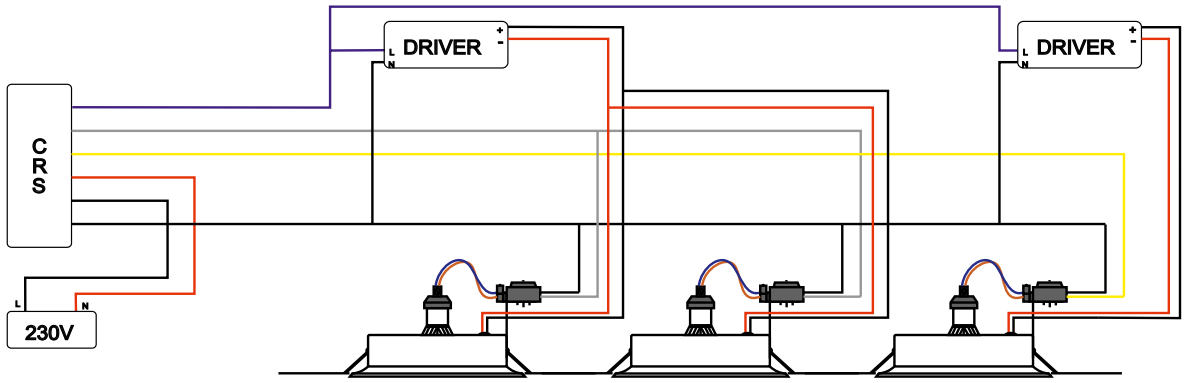
Conexión a driver /
Driver connection



REFERENCIA / *REFERENCE* **MD-LED**

CONEXIONADO DE VARIOS APARATOS AL CONTROLADOR DE ENCENDIDOS INDEPENDIENTES
CONNECTION OF MULTIPLE DEVICES TO THE CONTROLLER

CONEXIONADO DE LOS LEDS

Para conectar un solo aparato al driver, hay que conectar directamente el cable rojo al símbolo "+" del driver y el cable negro al símbolo "-" del driver.

Para conectar varios aparatos, realizar la misma operación, siendo la conexión entre aparatos en paralelo (todos los cables rojos al "+" y todos los cables negros al "-").

El controlador permite 4 posiciones. Tres encendidos / apagados independientes. Cada aparato puede estar o no encendido a la vez que los otros. Una cuarta posición permite el encendido/ apagado de todos los aparatos a la vez. (en el caso del gráfico, los tres aparatos de vez).

Para configurarlo, hay que escoger el cable azul, blanco y amarillo y usarlo como cable de línea para alimentar a cada uno de los grupos que se haya diseñado, pueden ser grupo de drivers o de portalámparas o de combinaciones de ambos. Tomando como ejemplo el gráfico superior, debemos conectar, en este caso:

1º Controla el encendido de los leds, al estar conectado a los dos drivers.

2º Controla el encendido de las dos primeras luces principales.

3º Controla la tercera luz principal.

Una vez hemos conectado los cables azul, blanco y amarillo, conectar el segundo cable negro (de arriba a abajo en el gráfico superior) a las partes neutras de las luces principales y drivers, todo junto en paralelo.

A continuación, alimentar el controlador conectando la línea (marrón) al primer cable negro y el neutro (azul) al cable rojo.

No es necesario programar el mando con el controlador. En cuanto se instale la batería al mando, ya se puede trabajar. Igualmente, podrá encender / apagar el sistema desde el interruptor de la instalación. A medida que accione el interruptor on/off irá cambiando la posición de encendido según el orden que haya establecido.

Observaciones:
Para asegurar un correcto funcionamiento se recomienda la instalación de productos Cristalrecord.

CONNECTION OF LEDS

To connect only one device to the driver, connect the Red wire to the symbol "+" of the driver and the black wire to the symbol "-" . To connect multiple devices, perform the same operation.The connection between all the devices will be in parallel (all the red wires to the "+" and all the black wires to the "-").

The controller allows 4 positions. Three independent turn on/ off and a fourth position for a simultaneous turn on/off of all the devices. Each one can be on or off at the same time.

To set it up, use the blue, white and yellow wires as line cord to supply each of the designed groups, like group of drivers, lamp-holders or both.

Taking the drawing above as an example, the connection would be as follows:

1º LED power control

2º Control of the two main lights

3º Control of the third light

Once the blue, white and yellow wires are connected, proceed with the connection of the second black wire (from top to bottom in the upper drawing) to the neutral parts of heading lights and drivers, all in parallel.

Supply the controller by connecting the line (brown) to the first black wire and the neutral one (blue) to the red wire.

It is not necessary to set up the remote control with the driver. When installing the battery to the control unit, it is ready. You can also turn on/ off the system from the switch of the installation.

Remark:
To ensure a correct and proper perform, the installation of Cristalrecord products is
recommended.

Simbología / Symbols

CE	Producto conforme a los requisitos fijados por las Directivas Europeas de baja tensión y compatibilidad electromagnetica especificados en las Normas Europeas armonizadas EN-60598 y CEI 598-2-2.
